

TEOSManage

TEOSManage

TEOS Manage is a powerful software application that enables you to easily manage all of a building's IP devices, content, and meeting rooms

Full control

Monitor and control networked devices, manage rooms, create content.

Schedule device on and off times

Save energy when not in use, such as evenings or weekends.

Rapidly pinpoint issues

Receive a notification if a device isn't working, fix it in advance.

Create your own impressive signage

Design content and schedule the playout across the workplace in minutes.

Optimise meeting room usage

Integrate tablets with your centralised booking system to show meeting schedules and book rooms.

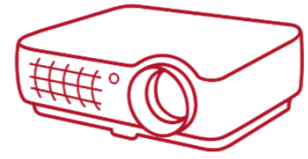

Scalable, cost-effective, and easy to use

Add new devices within no time, and group them by location for easier management.

TEOSManage

Key features

Control networked devices

TEOS Manage streamlines the control and maintenance of all your connected devices.

Control

Have total control over all your connected devices.

Monitor status

Avoid downtime by pre-emptively identifying device issues.

Schedule

Reduce electricity bills by managing the agenda of your devices.

TEOSManage

Key features

The image illustrates the TEOSManage system. At the top, a digital signage screen displays a 'TODAY'S SPECIAL' for 'Ceasar chicken piri piri salad' by L'ORÉAL. The price is € 6⁹⁵. Below the screen, a laptop shows the TEOSManage software interface with a 'DEVICE MANAGEMENT' section. At the bottom, there are icons for RSS, Facebook, Twitter, Instagram, and YAHOO!, along with the logos for flickr and Yammer.

Design digital signage

Easily create your own impressive signage in minutes.

Create

Create colourful, eye-catching signage and distribute instantly to networked screens.

Customise

On demand customisation for templates, interactivity, and features.

Alarms

In the case of emergencies, send alarms to all devices.

TEOSManage

Key features

Optimise meeting room usage

Avoid double bookings and poor space utilisation by easily checking in, booking, and extending meetings.

Optimise

Booked rooms get released if no one checks-in.

Save time

No more wasted time hunting for available rooms.

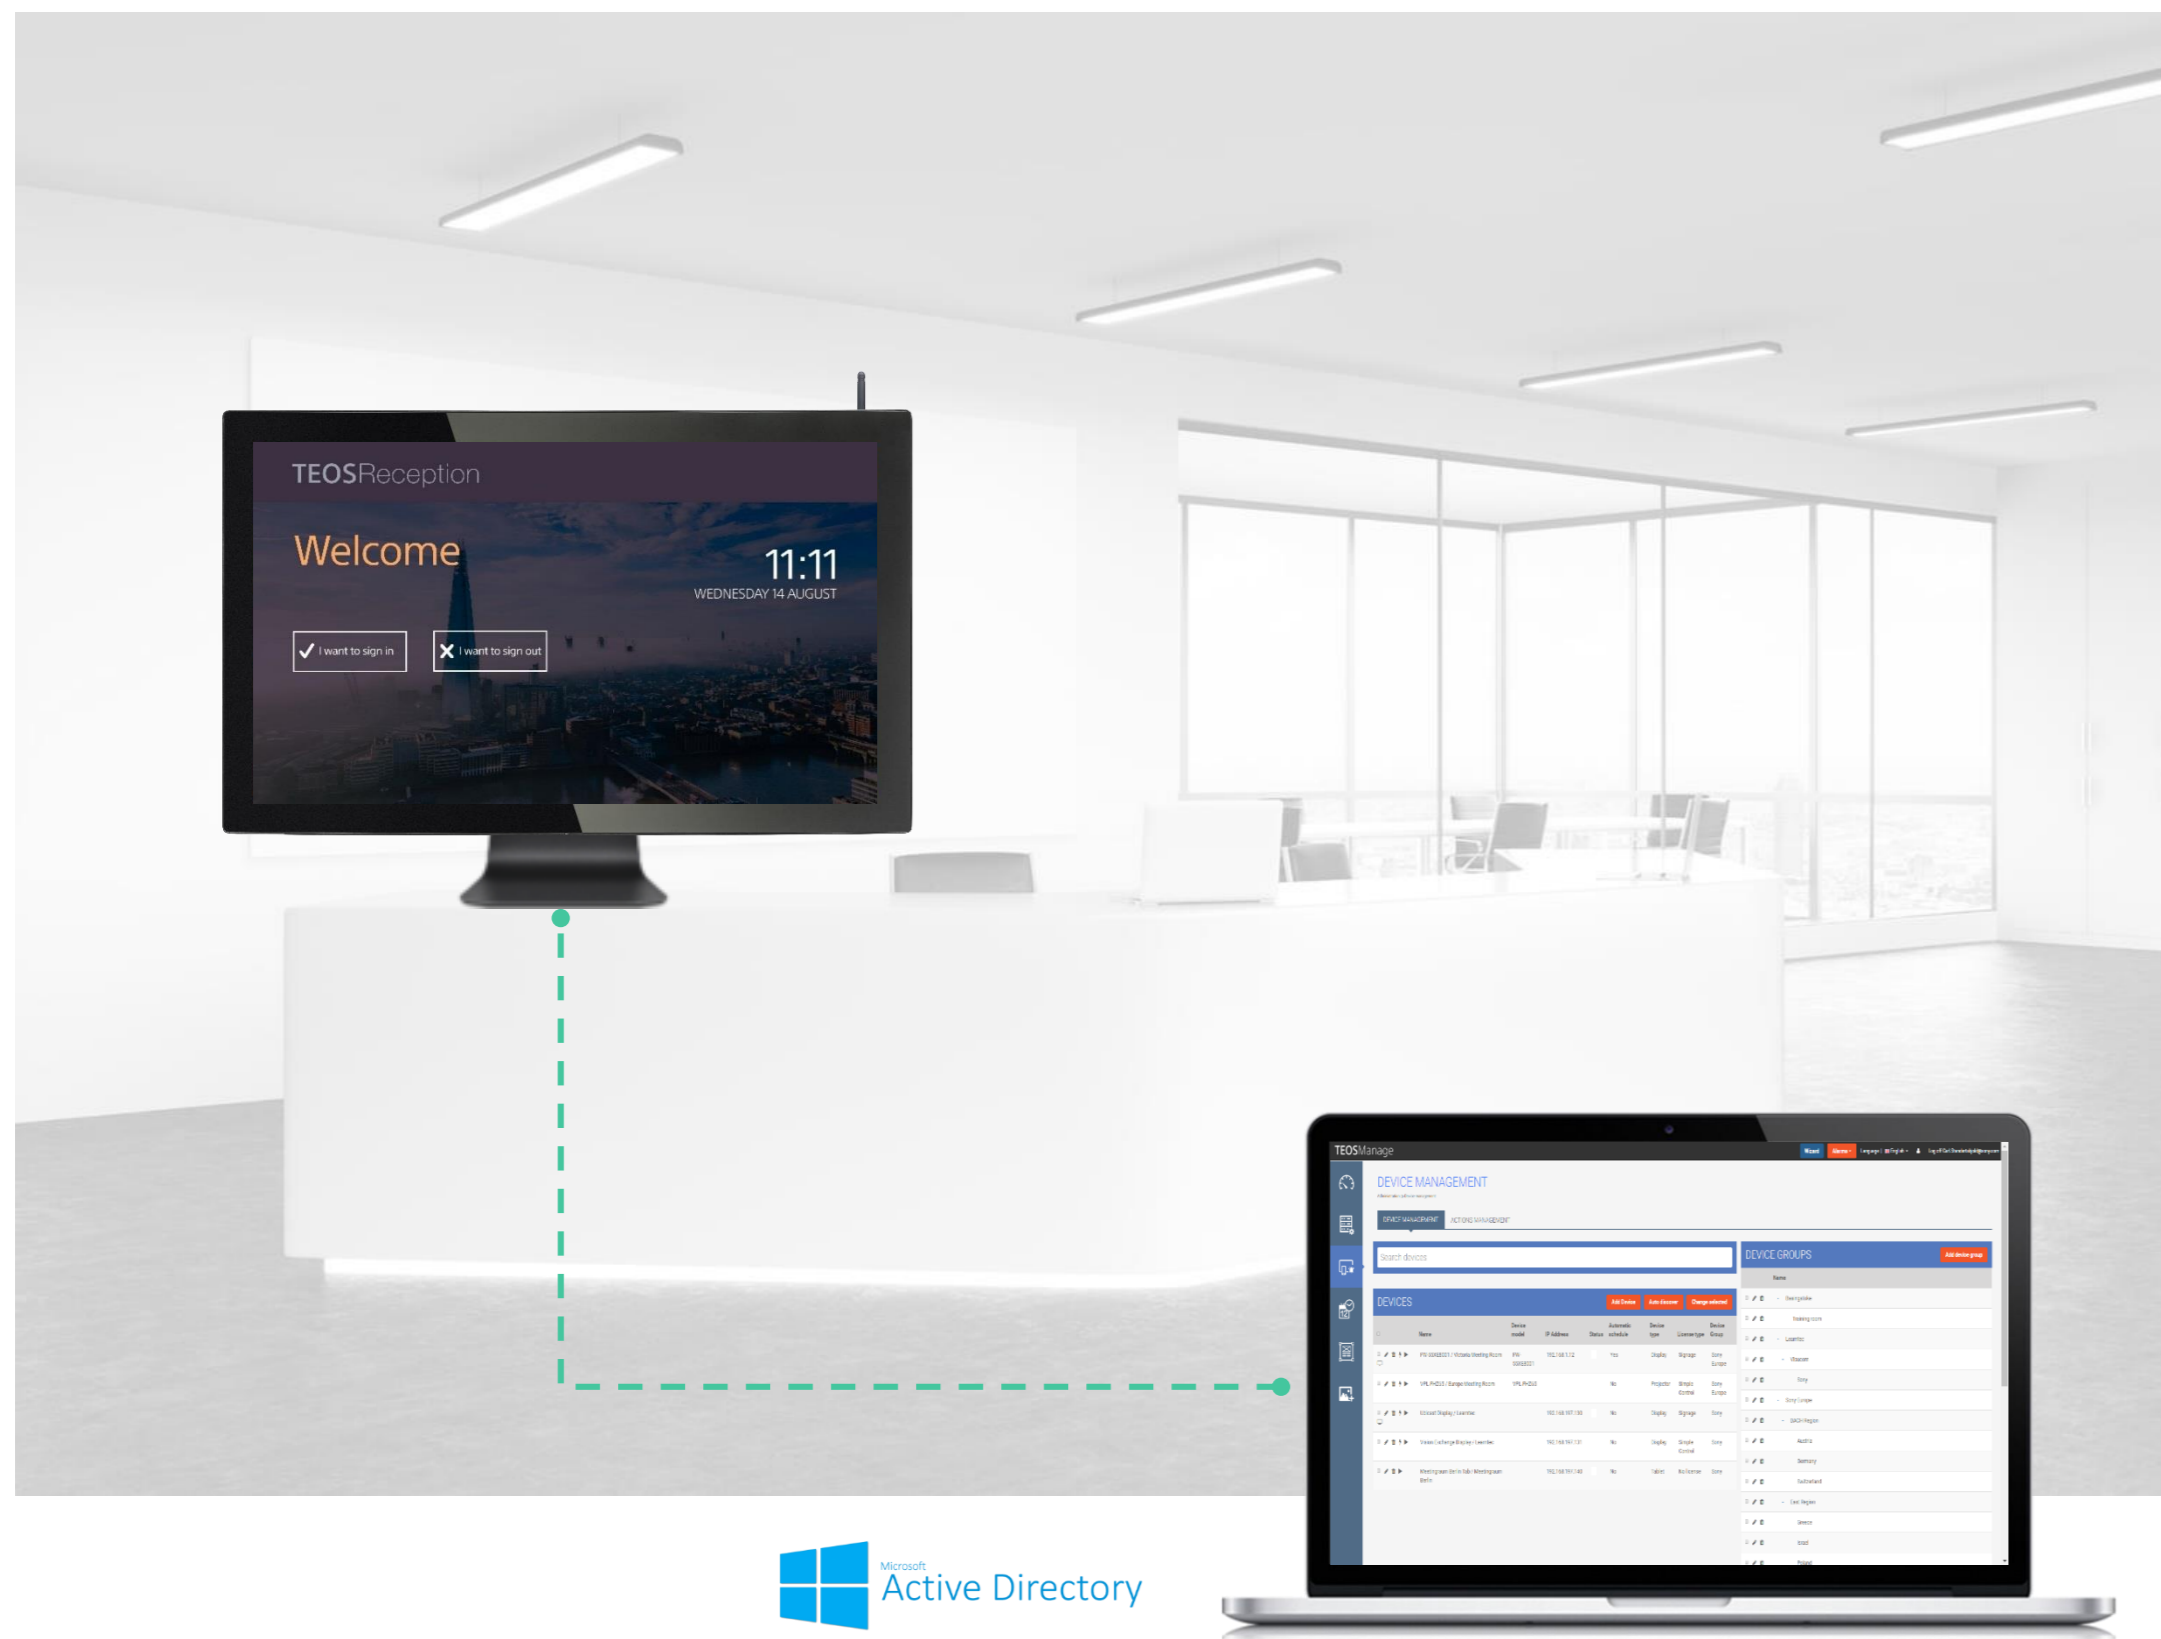

Touch

Easy and intuitive meeting room booking through tablet touch screens.

TEOSManage

Key features

Efficiently check-in visitors

Virtual reception service with no need for staff.

Cut costs

Automated check-in means no need for reception staff.

Customise

Customise the check-in experience and process for specific visitors.

Notifications

Employees automatically get an SMS or email notification when visitors arrive.

TEOSManage

Key features

Freely control room devices from your mobile

Employees can take control of connected devices and regulate lighting¹ in their meeting rooms, all from their smart phone² or an in-room tablet.

Easy to use

Just one tap of an NFC tag and you can control meeting room devices.

Free³

The solution is free but only works on devices that have a TEOS Manage licence.

Remove hardware

Users just need their mobile phone. Get rid of old controllers.

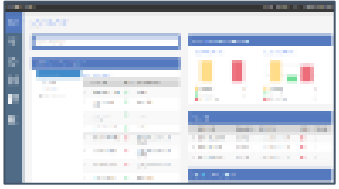

¹. Philips Hue

². Android mobile devices only at present

³. NFC tag is chargeable

TEOSManage Roadmap

The roadmap is continuously being developed based on user feedback and requests. If there are specific features or improvements desired then we will take them into consideration for the next development phase.

TEOSBook

TEOSBook

Avoid double bookings and poor space utilisation by easily checking in, booking, and extending meetings.

Optimise the usage of meeting rooms

No more unused space. Booked rooms get released if no one checks in.

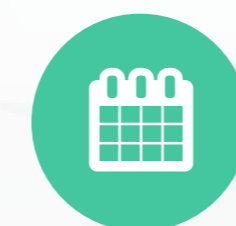

Save time

No more wasted time hunting for rooms.

Book rooms directly from tablets

Easily create meetings by from interactive tablets.

Instantly see what is booked and when

Red and green LED lighting shows room availability from a distance, and meeting agendas are shown on tablets.

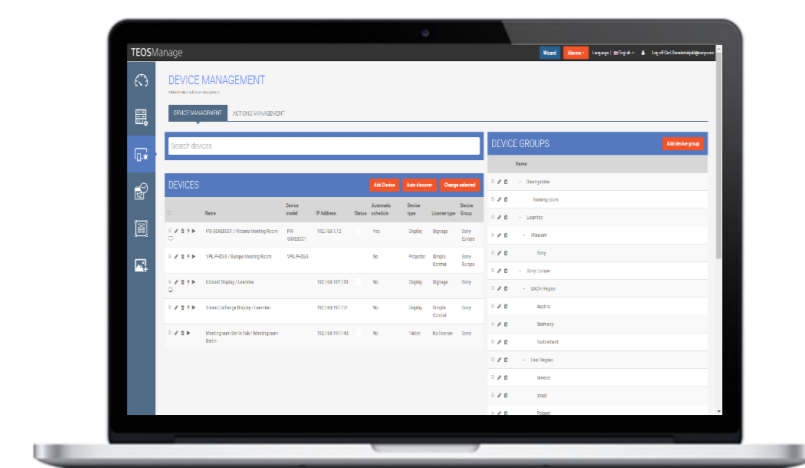

Customise design

TEOS Manage lets you create your own look and feel.

TEOSBook Specifications

TEOS Book is controlled by TEOS Manage and integrates with our range of B2B grade Android tablets.

TEOS Reception

TEOS Reception

With TEOS Reception visitors feel welcome, informed and can check in smoothly to notify their host of their arrival.

Cut costs

Reduce manpower costs and queuing times.

Customise design

Customisable design, features, and interface.

Immediate notifications

Employees automatically get an SMS or email notification when visitors arrive .

Print badges

Instantly print customised visitor badges.

TEOS Reception Experience Example

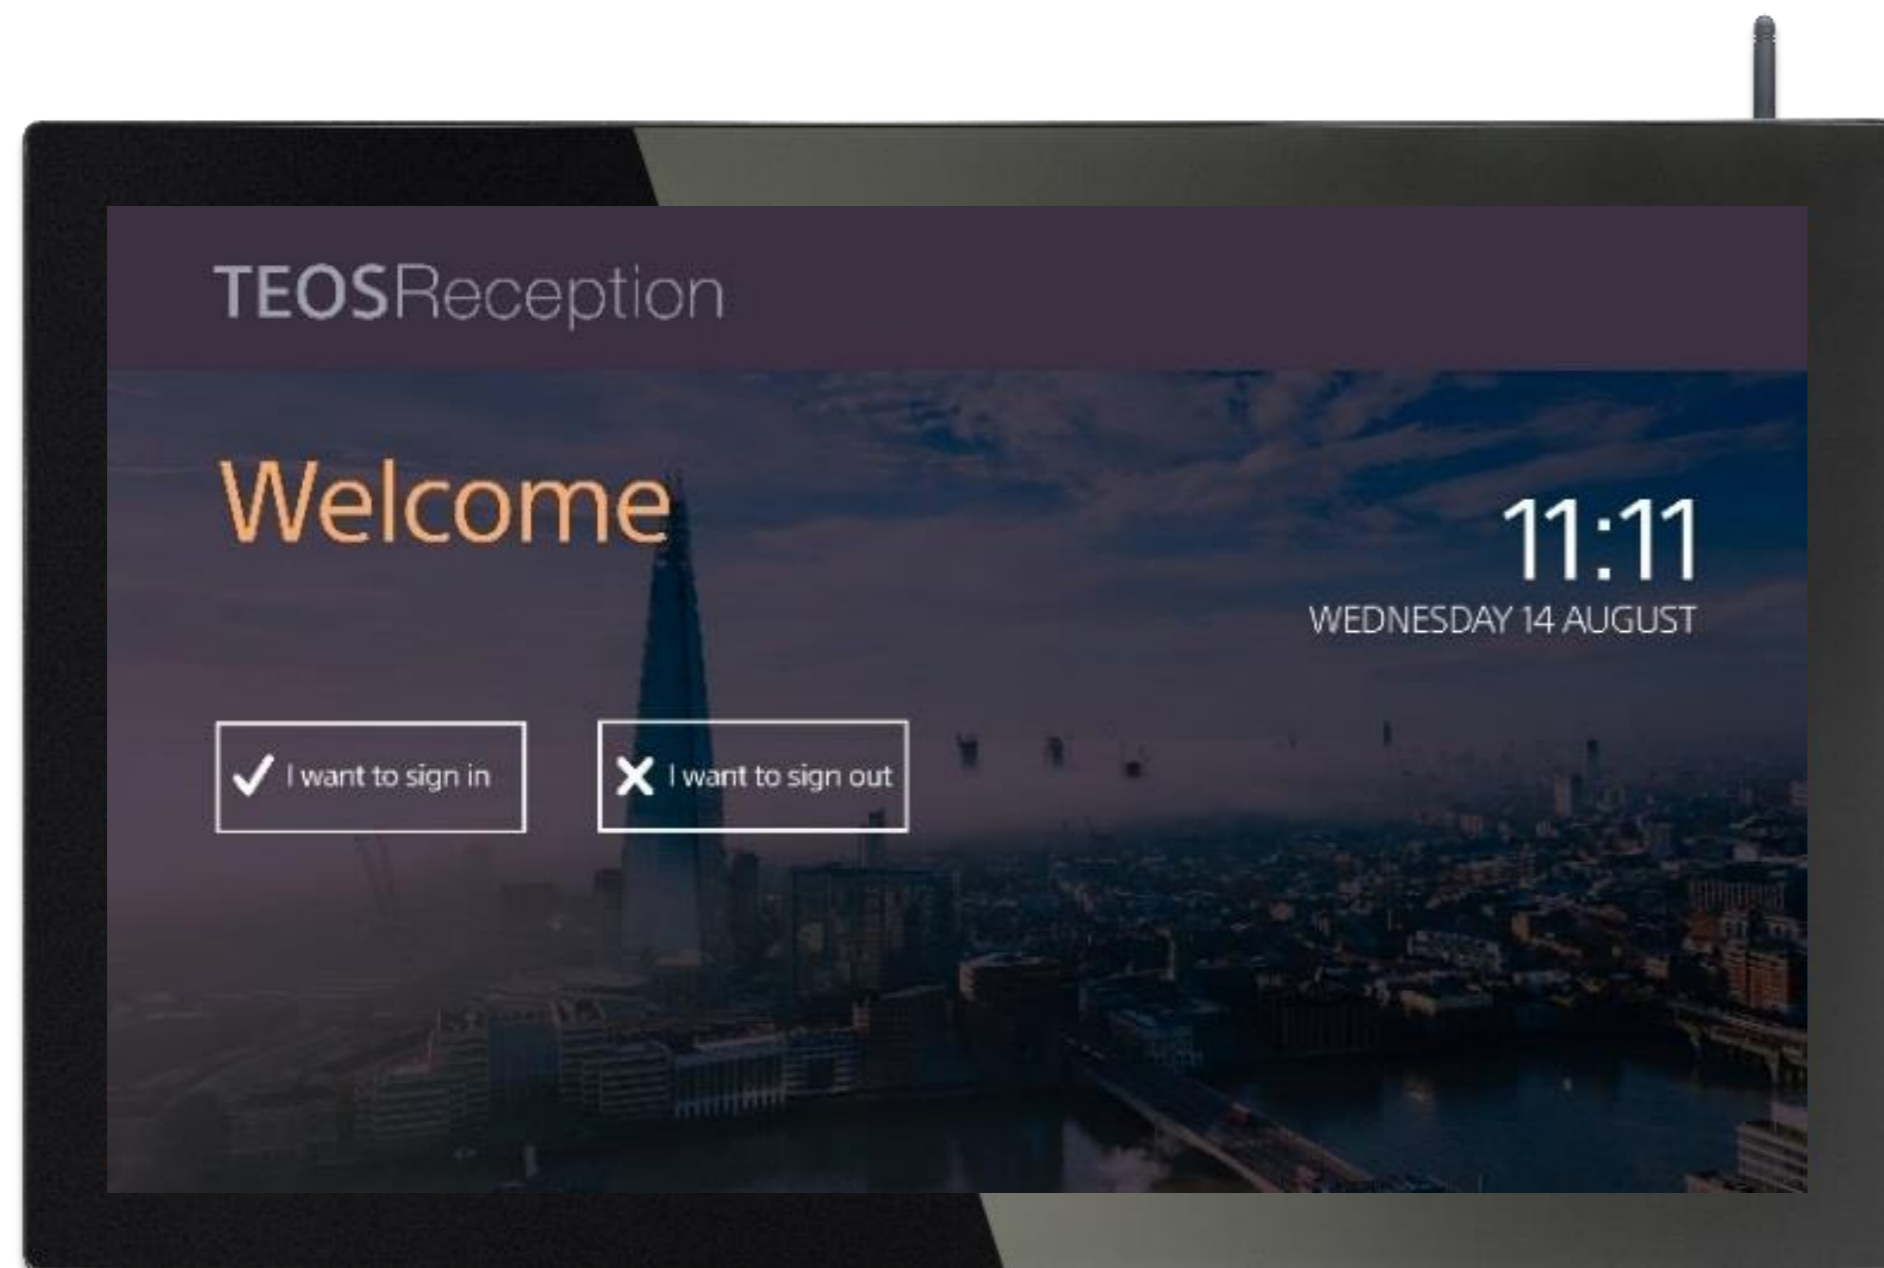

The design and interface is customisable, this is just an example

1. The visitor arrives at the building, approaches the TEOS Reception, and selects “I want to sign in”.

2. The visitor is asked if they have an appointment. They select “I have an appointment” and input their name.

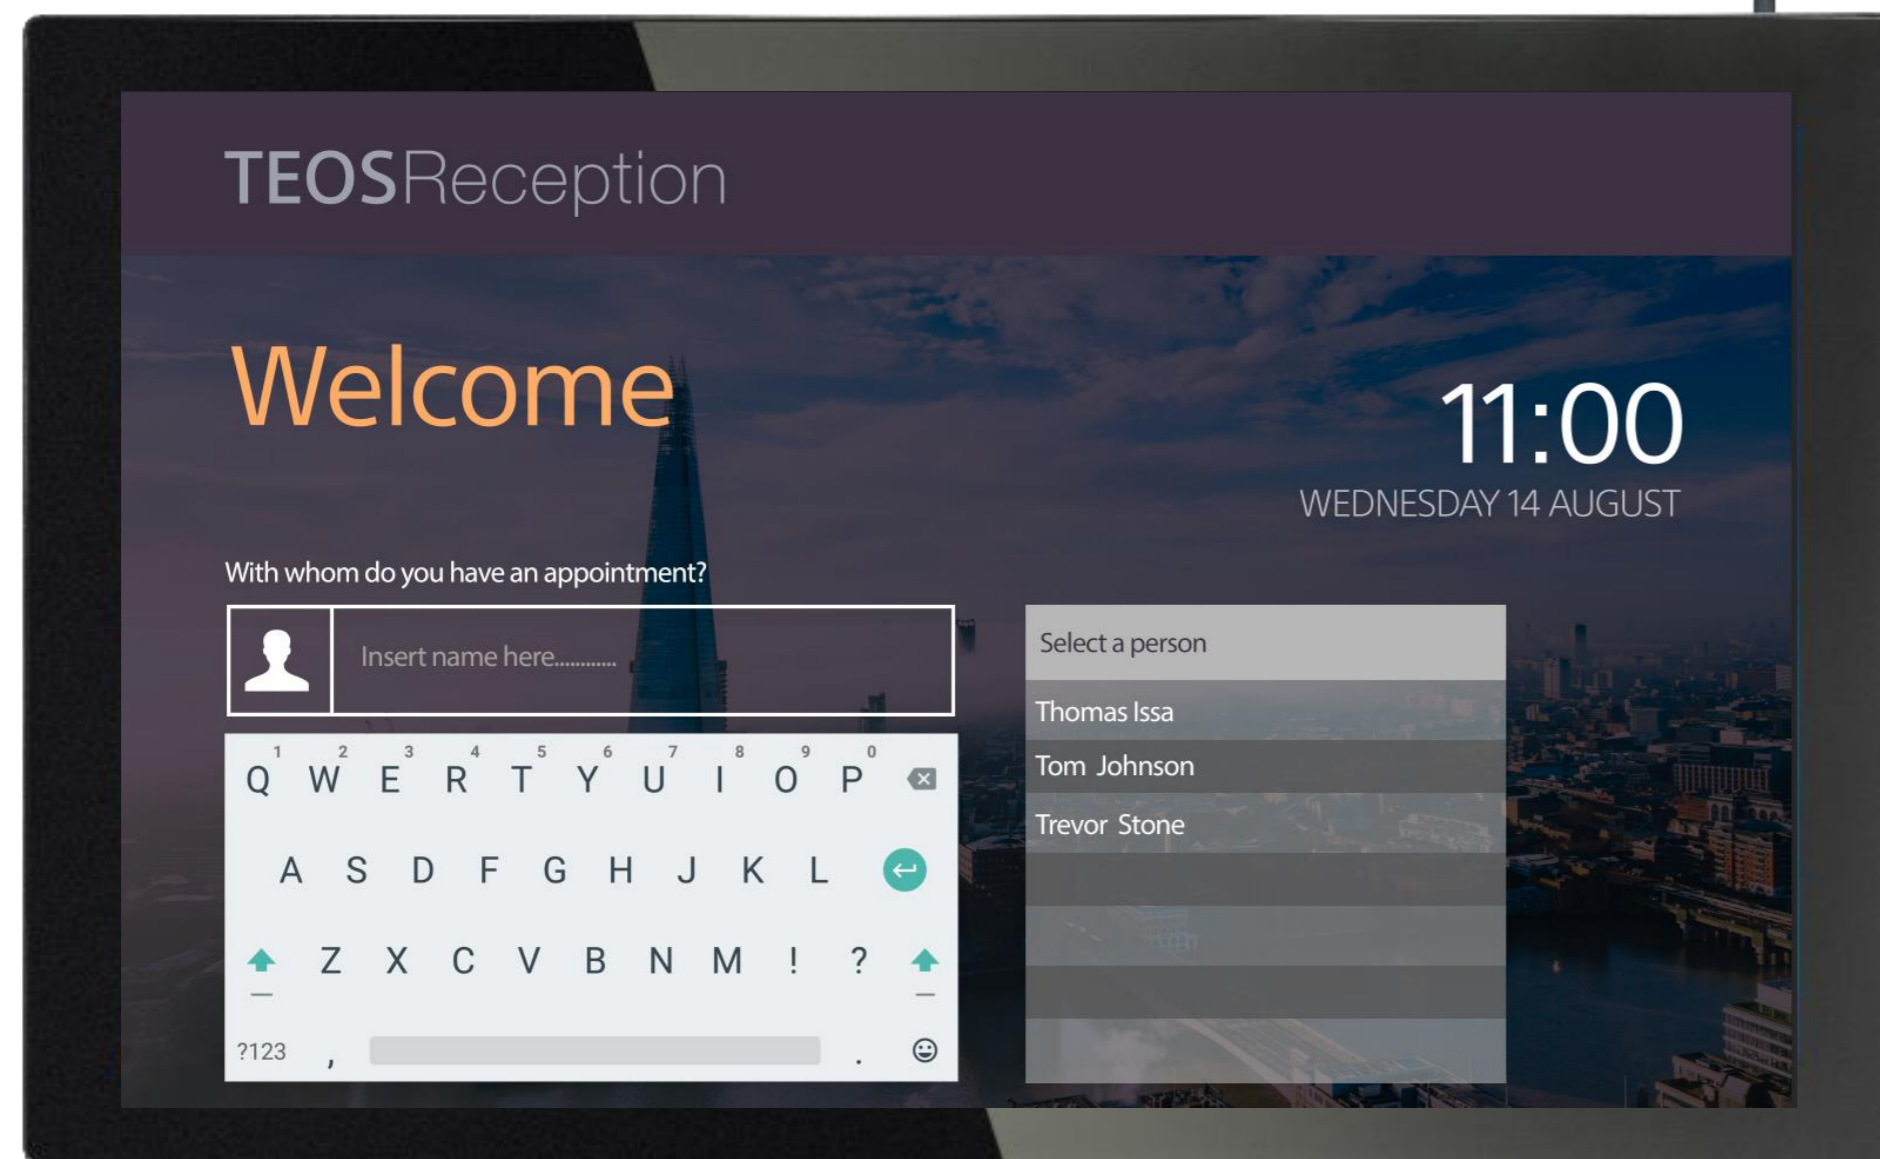

TEOS Reception Experience Example

3. The visitor searches for the name of their host, and then selects them from the list. TEOS Reception can be linked to Active Directory.

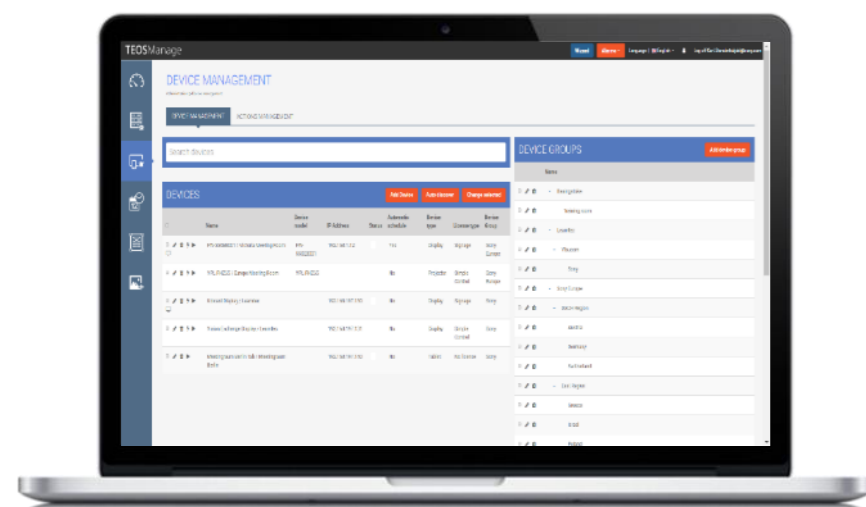

4. This triggers an SMS or email to the host to notify them their visitor has arrived. A badge is printed automatically for the visitor.

TEOS Reception Specifications

TEOS Reception is controlled by TEOS Manage and integrates with our range of B2B grade Android tablets.
