

Flat Panel Floor Stand with XL Wheels

VFM-F31/WXL EU SAP: 5790714

vav.link/vfm-f31-wxl

Fits Large-format flat panels 37-90" - *subject to VESA pattern and weight limit*

VESA 800 (wide) x 600 mm (tall) - *alternative versions available*

SWL (safe working load) 130 kg (286 lb)

800 mm (31.5") manual height adjustment

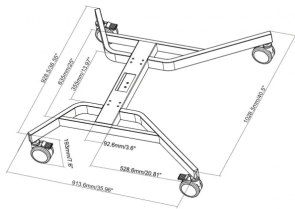

Extra deep leg design for maximum stability

Premium 100 mm 4" wheels

Comes 95% assembled

The VFM-F31/WXL is a heavy-duty height-adjustable portable floor stand for large displays. It is a non-motorised version of the VFM-F30/WXL. This premium mount is designed to support all displays including very heavy touch screens. But with slim design elements it blends in instead of dominating a room - perfect for quality boardroom and meeting spaces.

Installation is quick; just take it out of the box, attach the flat-panel mount, and fix the wheel assembly. Vision's floor stands transmit the load of the heavy display safely to the floor.

Heavy Duty

The F31 uses heavy-gauge components to take up to safe working load (SWL) 130kg (286 lbs).

For 37-90" Displays

Fits most displays from 37-90" subject to VESA pattern and weight limit. Note: curved screens are not supported by this mount.

800 mm / 31.5" Height Adjustment

The columns move up and down with 800 mm / 31.5" of range. With no pinch-points this is a very safe design.

Telescopic Columns

The tight tolerance of the telescopic legs results in no unwanted wobble at the screen.

Very Tall for Exhibition and Rental

This floor stand is slightly taller than the motorised F30; at the highest position the centre of the display is 2018 mm (79.4") high. This height advantage makes it ideal for rental and staging applications.

Grab Handles

Two handles come with the wheel assembly to help users move the floor stand around without having to grab the display.

Cable Management

Cable clamps keep the cables tidy.

Media Player Fixing

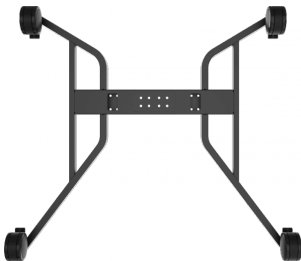

Media players can be fixed to the wall bracket assembly out of sight. The wall bracket has VESA 100 holes especially for this.

VESA 800 x 600

This product includes Vision's heavy-duty [VFM-W8X6](#) wall mount which fits most large-format flat panels from 37-80". Vision's larger [VFM-W10X6](#) wall bracket can also fix to this column, or the smaller [VFM-W6X4](#) and [VFM-W4X4](#).

Optional Laptop Shelf

An optional shelf fixes at four different heights in 80 mm (3.1") increments to the horizontal part of the wall mount. The platform is 450 mm (17.7") wide by 306 mm (12.0") deep. At the lowest height setting the shelf is 680 mm (26.8") below the centre of screen. *Part Number:* [VFM-WLS](#) [EU SAP: 4857149 / US SAP: 13557610]

VISION

Optional Video Conference Shelf

This shelf fixes in the centre above or below the display. It accommodates cameras such as Logitech's Rally, and also Logitech's Meetup, Yamaha's YVC-1000, or Barco's Clickshare CSE-200 base stations. With VESA100 holes on the vertical section, product's like iPad enclosures can be fixed above or below the display. *Part Number: [VFM-WVC](#) [EU SAP: 5048878 / US SAP: 13557673]*

Large 100 mm / 4" Wheels

Big wheels make it easier to pull along, and reduce vibration. They even have curved corners so they are gentler on your feet.

Display Secured

The display latches into place on the floor stand. It cannot slide off and screws can be added from behind to completely lock it in place.

Optional Rotation

A rotary bearing assembly can be added, allowing the display to be turned from portrait to landscape. With the bearing the SWL of the display is limited to 40 kg / 88 lb. *Part Number: [VFM-WRT](#) [EU SAP: 5432023 / US SAP tbc]*

Extra Large Feet

The feet extend further to ensure the display is as stable as possible.
